

DIABETES & WOUNDS: What's Trending? Diabetes Update with Current Macrovascular Outcomes and Impact of Neuropathy and Treatment on Wound Care

Brought to you by the Hawaii Association of Diabetes Educators

Speakers:

Alan Parsa, MD, FACE

Kim Saunders, MSN/ED, RN, CWON, CFCN

Seminar Overview:

All health care professionals that have or treat patients with diabetes should attend this continuing education program.

By attending this program, you will be provided with:

- A review of the current recommended treatments of neuropathic ulcers
- Updates on therapies to treat neuropathy
- A review of clinical trials on cardiovascular events for newer medications to treat diabetes
- A great event to network with other health care professionals

This is a knowledge-based activity designed for diabetes educators.

Registration:

\$150 for Hawaii ADE Members

\$175 for Non-Members

Online registration at:

<http://www.myaadenetwork.org/p/cm/ld/fid=5418>

Space is limited

Friday, October 13, 2017

Ala Moana Hotel
410 Atkinson Drive
Honolulu, HI 96814

Target Audience

Any Health Care Professional
Clinical Nurse Specialist
Dietitians
Nurses
Nurse Practitioners
Pharmacists

Course Outline:

- 7:30 – 8:00 am Registration, Exhibits, and Continental Breakfast
- 8:00 – 9:00 am Diabetes Update with Cardiovascular Outcomes. Speaker: Dr. Alan Parsa
- 9:00 – 10:00 am Discuss the mechanisms of wound healing, risk factors for not healing, including the pathophysiology of neuropathic wounds. Speaker: Kim Saunders, MSN/ED, RN, CWON, CFCN
- 10:00 – 10:30 am Break
- 10:30 – 12 noon Define neuropathic symptoms & surgical complications with elevated A1c levels. Look at the complicated neuropathic foot diagnostics, treatment, and pharmacologics with wound bioburden, soft tissue infection, and osteomyelitis. Speaker: Kim Saunders, MSN/ED, RN, CWON, CFCN
- 12:00 – 1:00 pm Lunch
- 1:00 – 2:30 pm Discuss the neuropathic foot/nail common conditions, assessment, treatment, and diagnostics. Correlate coexisting arterial insufficiency presentation and the vascular work-up. Speaker: Kim Saunders, MSN/ED, RN, CWON, CFCN
- 2:30 – 2:45 pm Break
- 2:45 – 4:20 pm Emerging technology and discussion of the accuracy of the ABI in a literature review. Grand rounds of wound pictures. Speaker: Kim Saunders, MSN/ED, RN, CWON, CFCN

Learning outcomes:

Attendees will increase their knowledge about the pathophysiology of lower extremity neuropathic disease, be able to facilitate standard of practice assessment and treatment of the neuropathic ulcer per neuropathic evidence-based practice guidelines. In addition, the attendees will learn about the effects of some medications on neuropathic ulcers and trending treatments and discoveries concerning the neuropathic ulcer.

In addition, attendees will understand the features, mechanism of action, effectiveness of newly approved FDA medications for the treatment of diabetes, and identify which ones have shown benefit in reducing cardiovascular events.

Learning objectives:

- Define standard of practice assessment/treatment of neuropathic ulcer
- Contrast neuropathic foot off-loading options
- Discuss treatment based on perfusion
- Define neuropathic symptoms & surgical complications with A1c levels
- Correlate supplements with improved neuropathic symptoms
- Describe effect of various oral medication categories on wound healing
- Define testing for loss of protection sensation
- Describe bedside ankle-brachial index testing procedure
- Define deviations of foot & effects on wound healing
- Describe emerging technologies for treatment of Diabetic Foot Ulcer (DFU)
- Discuss clinical practice of ABI and questions of accuracy
- Discuss best practice in diagnosing osteomyelitis in the DFU
- Describe recent medications to treat diabetes mellitus and effects on cardiovascular events

Requirements for Successful Completion:

For successful completion, participants are required to be in attendance in the full activity, complete, and submit the program

DISCLOSURES FOR PLANNERS OR PRESENTERS:

Alan Parsa, MD-on the speaker's bureau for Astra Zeneca, Boehringer Ingelheim, Lilly

ACCREDITATION STATEMENT

American Association of Diabetes Educators – Provider is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. This program provides 7.0 contact hours of continuing education credit.

The AADE is also accredited by the California Board of Registered Nursing (CEP# 10977).

AADE is an Iowa Board of Nursing approved provider, #366. AADE awards this program 8.4 contact hours or .84 CEUs (1 contact hour = 50 minutes, or 0.1 CEUs). This certificate must be retained by the licensee for a period of four years.

The American Association of Diabetes Educators is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of pharmacy education. This program provides 7.0 contact hours (.70 CEU's) of continuing education credit. See the final CPE activity announcement for specific details.

The American Association of Diabetes Educators (AM001) is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR). CDR Credentialed Practitioners will receive 7.0 Continuing Professional Education Units (CPEUs) for completion of this activity/materials. Continuing Professional Education Provider Accreditation does not constitute endorsement by CDR of a provider, program, or materials.
